DETAILED ACTION

1. This Office action is in response to papers filed on 6 February 2004.
2. Claims 1-32 are pending and presented for examination.
3. Applicant's submission of references on form PTO-1449, filed on February 6, 2004, has been considered. A signed copy of the form is attached.
4. The drawings were received on February 6, 2004. These drawings are acceptable for examination.

Allowable Subject Matter

5. Claims 1-32 are allowed.
6. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or fairly suggest the limitations of instant claims 1-32. Specifically, a method that allows for accurate determination of critical dimension specifications and overlay specifications based on the line edge placement specifications as established for the manufacturing process so as to determine whether or not a particular lot of semiconductor wafers needs to be reworked is not taught or rendered obvious, when taken in context of the claims as a whole, specific to the mathematical expressions used to calculate overlay tolerance, in claims 5, 9, 12, and/or critical dimension tolerance, in claims 15, 18, 21, and/or line edge placement error, in claims 25 and 30. Moreover, evidence for modifying the prior art teachings by one of ordinary skill level in the art was not uncovered so as to result in the invention as claimed.

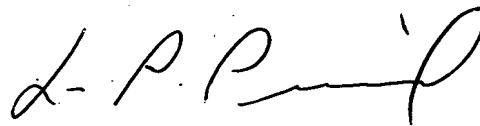

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
